President
Synergistic Networks, Inc.
105 South York Street Suite 550
Elmhurst, IL 60126

Dear Greg:

Just a note of thanks and appreciation for the work your people did in getting our new Web site up and running.

Your *Synergy Web Platform™* solution works well for us, giving our company a professional Web presence that works well with the Web search engines. The Platform's content management system is easy-to-use and allows us to post more information, more quickly (and less expensively) to our Web site. Also, I know we will begin to use the site modules more in the near future, the photo gallery and blogs will be very helpful. Our IT person was very impressed with the *Synergy Web Platform™* solution.

Lastly, let me tell you that our people enjoyed working with your staff, and the training and consulting your people offered was excellent. We know that anytime in the future, as the Web changes or our needs change, SynNet client support will be there to help.

Best regards

Lee Daniels
President
